

# **Index**

## **Information Fusion and Aggregation Operators**

Vicenç Torra

April 25, 2007

Vicenç Torra, Yasuo Narukawa (2007) Modeling Decisions: Information Fusion and Aggregation Operators, Springer. <http://www.springer.com/3-540-68789-0>;  
<http://www.mdai.cat/ifao>

# Index (I)

---

- Introduction (Chapter 1)
- Basic Notions (Chapter 2)
  - Measurement Theory
  - Probability and Statistics
  - Fuzzy Sets
- Introduction to Functional Equations (Chapter 3)
- Synthesis of Judgements (Chapter 4)

# Index (II)

---

- Fuzzy Measures (Chapter 5)
  - Definitions, Interpretations, and Properties
  - Belief and Plausibility Measures
  - $\perp$ -Decomposable Fuzzy Measures
  - Distorted Probabilities
- From the Weighted Mean to Fuzzy Integrals (Chapter 6)
  - Weighted Means, OWA, and WOWA Operators
  - Choquet Integral
  - Weighted Minimum and Weighted Maximum
  - Sugeno Integral
  - Fuzzy Integrals
  - Hierarchical Models for Aggregation

# Index (III)

---

- Indices and Evaluation Methods (Chapter 7)
  - Indices of Power: Shapley and Banzhaf Power Indices
  - Interaction
  - Dispersion
  - Average Values
  - Orness or the Degree of Disjunction
- Selection of the Model (Chapter 8)
  - Analytic Hierarchy Process
  - OWA Weights and Orness
  - Extracting Parameters from Examples: Expected Outcome
  - Extracting Parameters from Examples: Preferences or Partial Orders
  - Analysis

# Index (IV)

---

- Appendix
  - Properties
  - Some Aggregation Operators
